PRODUCER: Cantine Felicita in the Cellar of Costiglili D'Asti - Italy. Located strategically in the Asti region (Piedmont), each bottle of Felicita meets the highest DOC and DOCG standards.

WINEMAKING : Soft pressing of the grapes and immediate refrigeration of the must, to avoid fermentation. The must is then cold stabilized, filtered and analytically checked. Finally, it is mixed with water, sugars, flavoring and the preservative potassium sorbate, in a pressure tank, at low temperature. Now the product is ready to be tangentially filtrated and bottled, under sterile conditions.
